VENUS[®] Concept

PATENTED CONCEPT

Watertight packaging

Environment-friendly packaging

Hygiene - Safety - Conservation

Can be frozen immediately

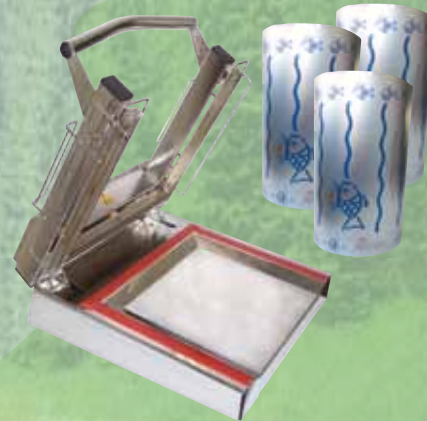

Vénus[®]

The VENUS[®] concept is a modern concept that ensures your customer :
Hygiene, sealing and conservation of fresh food products.

Its deep basin has a large welding capacity.
Cleaning is easy as it is entirely made of stainless steel.

Manufactured packaging can be **frozen immediately**.
It is also an excellent base for advertising.
